

Metal foot end mattress retainers

Our metal foot end mattress retainers are standard with our adjustable beds. When the head end of the adjustable bed is raised the mattress will naturally try to slide down the bed. Although they may not be the prettiest accessory the metal foot end mattress retainers are designed to hold the mattress in position.

Upholstered foot end mattress retainers

Although the metal foot end mattress retainers are very practical, the upholstered foot end mattress retainers have a nicer appearance and grip the mattress better. Upholstered in the colour and material to match your adjustable bed selection.

Price

Single Bed - Foot end mattress retainer **£15**

Twin Beds - Foot end mattress retainers **£30**
